1. This Office action is in response to the amendment filed 03/23/06. Claims 28-30 are pending. Claims 1-27 have been canceled.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 28-30 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,560,385 to Zheng.

Zheng provides a plurality of frame members 28a through 28d, each frame member having a folded and an unfolded orientation, each frame member formed of a continuous loop that is generally flat and within a plane when the frame member is in the unfolded orientation (Figure 1). A frame retaining sleeve 24a through 24d formed of fabric material is associated with and at least partially retains each frame member. Further fabric material 30a through 30d is attached to each frame retaining sleeve and held taut when in the unfolded orientation. First 28b and second 28d frame members are supported in a fixed, spaced relation to each other in separate but parallel planes (Figure 1) and the frames and sleeves surround open central areas 38 bounded by the respective frame members and sleeves. The fabric is coupled at the corners of the respective frame members and further fabric 30a is located between the first 28b and second 28d frame members when in the unfolded orientation (Figure 1).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
